Dual Footwear and Wristband Tester

Features:

This instrument has been developed to test footwear and wristbands simultaneously.

The wall mounted instrument indicates left and right feet and wristband and cord status by the means of high and low fail indicators.

Stand on the dual footplate and touch the touchplate to test footwear and to test wristband and cords plug your wristband into the input socket.

All three can be tested at the same time if required. There is also a low battery indicator.
