

AirForce Ionising Blow-off Gun

Provides efficient ionisation and effectively removes particle contamination, even on the most static-sensitive of products.

Patented IsoStat®1 technology ensures that surface charges are controlled with constantly balanced ionisation. The AirForce Gun never needs calibration and requires very little maintenance.

Features

- Compact and lightweight
- Model 6115
- Can be mounted anywhere on the workstation for easy access
- Connects to any supply of clean dry air or nitrogen
- Internal disposable filter collects any residual particles
- All elements are static dissipative and ESD-safe
- Low EMI level ensures it won't interfere with other electronic equipment or operations
