

PRODUCT

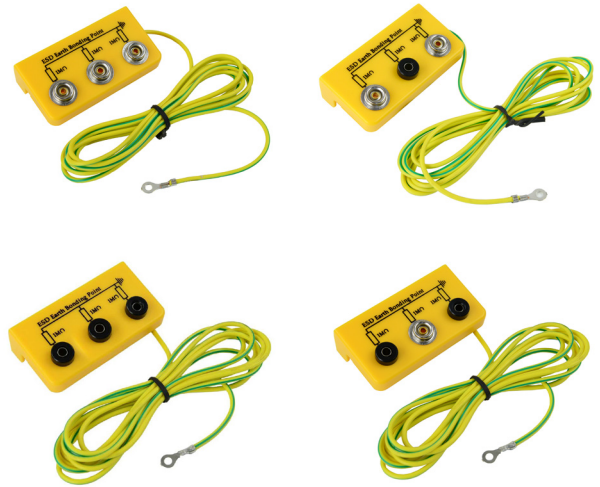

Under Bench Earth Bonding Bracket

L Shaped under bench Earth Bonding Point with 4 different configurations available.

Designed to be fitted to the edge of a workbench, or other suitable equipment, where it will be accessible but unlikely to be knocked and damaged, or obstruct the operator.

An earth bonding point (EBP) can be used to ground bench matting, floor matting and wrist straps together so as to be at the same electrical potential.

This EBP can be used to connect operators and other elements of the EPA to ground.

FEATURES

- Designed to be fixed to the work-bench
- Fitted with 3 x 1 Megohm resistor, one for each connection
- Material: ABS
- Configurations can include 10mm studs and 4mm banana sockets
- Supplied with fitting screws
- 2m earth wire with eyelet termination
- Supports EN 61340-5 and can be used as part of an ANSI/ESD S20.20 program
