

Composition of Antistatic & Shielding Bags

The ESD Control Centre Ltd, T/A Antistat hereby declares that all of the bags that we offer contain a minimum of 30% recycled material.

We have taken this step, in advance of the Plastic Packaging Tax that is due to come into effect in the UK in April 2022 as part of our ongoing commitment to the environment.

We continue to strive to identify ways to reduce the environmental impact of our business, including the use of Solar panels on our European HQ here in the UK.
