

PRODUCT

Integrity Cellulose Sponge Mop and Handle

TECHNICAL DATASHEET

DESCRIPTION

Simple all in one solution to minor mopping requirements. Integrated design combines genuine cellulose sponge, roller wringer and handle.

It is also autoclavable at 121°C at 30 minutes, meaning it can be sterilised in an autoclave to meet the stringent requirements of cleanroom environments. Supplied in a non-sterile state

Integrated into the mop is a roller wringer, which allows for easy squeezing out of excess liquid from the sponge without the need for a separate wringer bucket. Replacement head or head and handle set sold individually.

FEATURES

INTEGRATED ROLLER WRINGER

REPLACEABLE MOP HEAD
