

Fabric Adjustable Wrist Strap Set - Hypoallergenic

TECHNICAL DATASHEET

DESCRIPTION

Set includes a comfortable, fully adjustable antistatic strap and high quality grounding cord to provide secure connection to earth. This set meets requirements of ANSI/ESD 11-2021 and can be used as part of ANSI/ESD S20.20 control program.

The cord has an inner conductive wire with a non-conductive coating with a surface resistivity of 1M ohm. The lead recoils neatly after use, keeping work areas clear and organized for operator comfort and efficiency.

A conductive plastic backplate covers the metal part of the wrist strap, preventing an allergic reaction from contact with skin. Wrist straps are fully adjustable and comply with EN 61340-55
